**HOW TO CREATE AN EU-Login ACCOUNT AND WHERE TO FIND YOUR USERNAME / UID?**

EU Login is the European Commission Authentication Service. It allows users to access a wide range of Commission information systems, using a single username and password.
Once you log in, **EU Login** will remember you as long as you keep your browser open.

During that time, you won't have to identify yourself again, no matter how many online services of the Commission you access.

To **create an account** (or log in) go to https://webgate.ec.europa.eu/cas/

Click on the link, '**Create an account**', below the log in details window.

Enter the information requested on screen to create an account, including your email address and click on the "create an account" button.

You will receive a confirmation email to the address entered. Click on the link in this email to finalise the account creation process and create your password.

Keep a record of your **EU Login** username.

EU-login username / UID

After registering and logging in to EU-login at: https://webgate.ec.europa.eu/cas/login
go to **My Account** under ⚙ icon.
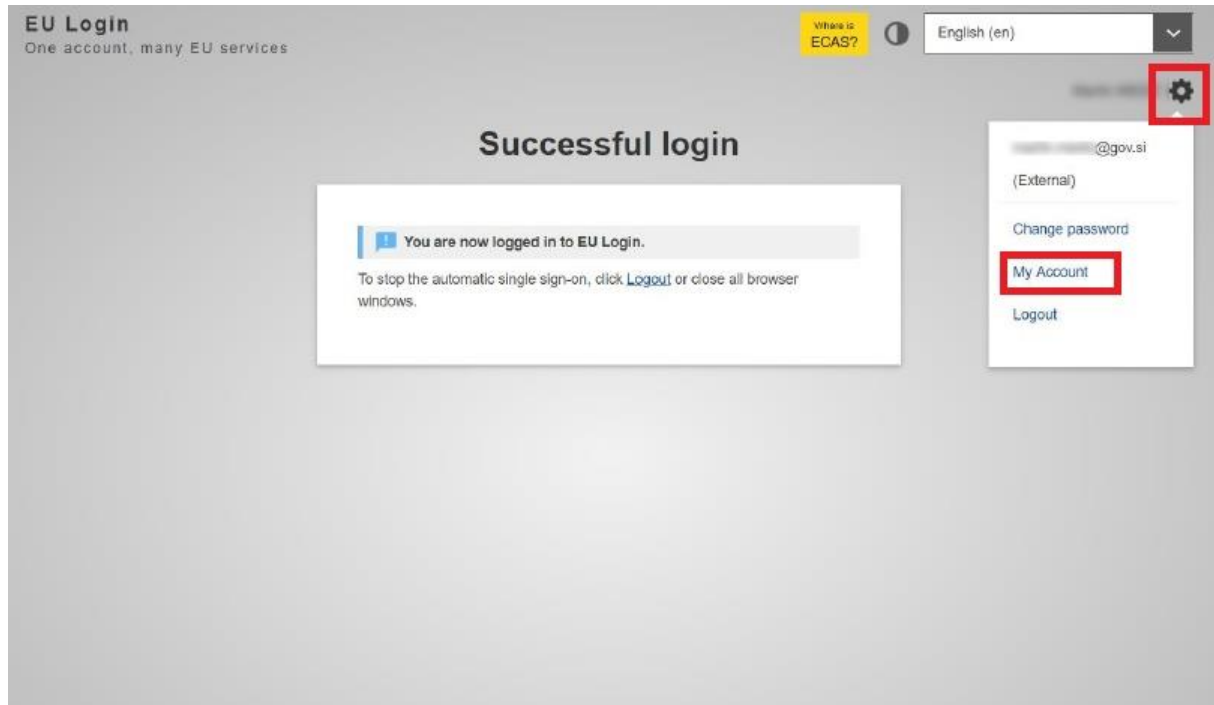

Go to **My account details**.

Here you will find your **Username** and **uid.** Copy that to the registration form for the workshop.

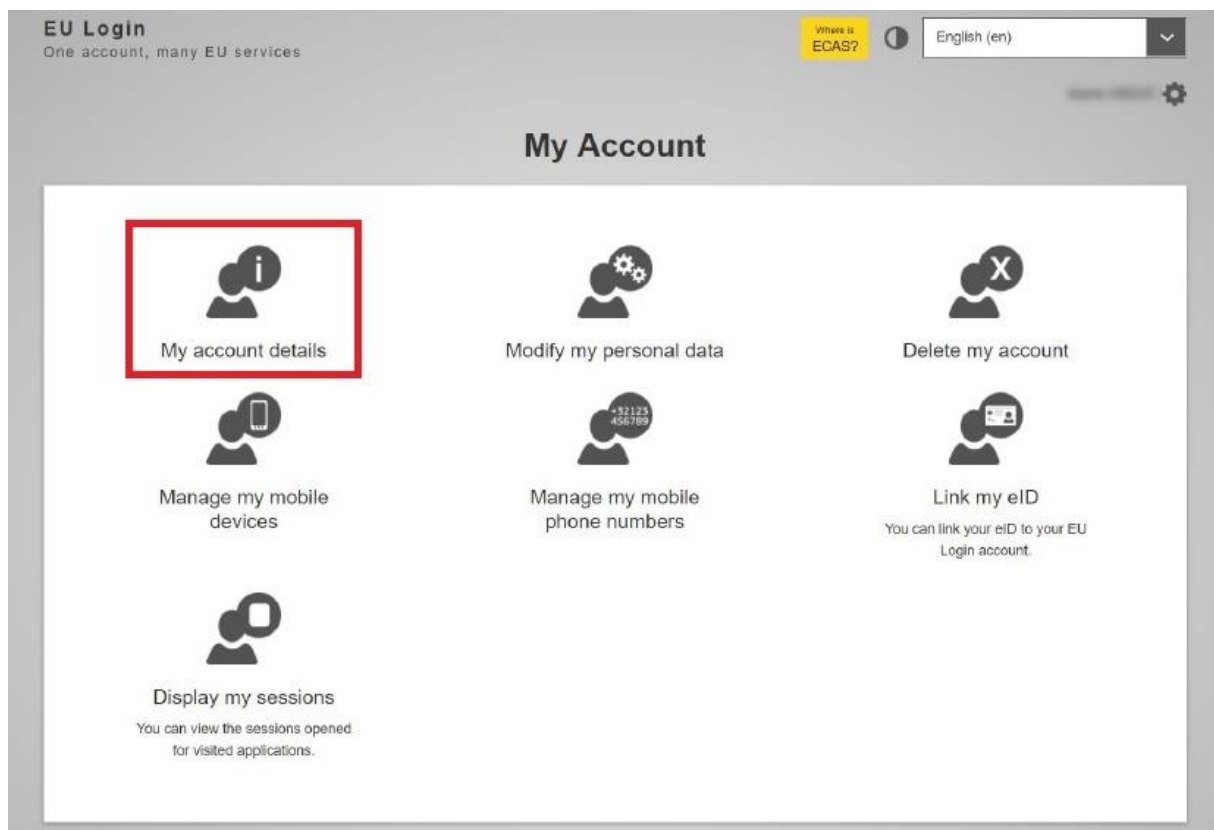

EU Login
One account, many EU services

Where is ECAS?
